There was a serious clash between Turks and Armenians. A creamery trust, with \$18,000,000 capital, is being organized. John D. Rockefeller has given \$100,000 to Syracuse University. Camilla Uiso, once famous as a violinist, died in New York. Sam Penco was killed by falling on a saw in a mill in Wolfe county. Marconi and Croker are fellow passengers on a liner bound for England. There are 267 cases on the docket of the Madison circuit court, which is in session. W. H. Taft, civil governor of the Philippines, arrived at San Francisco quite ill. His drive at Shiloh and Davis, W. Va., 12 lives were lost and the former town destroyed. The cashier of the Commercial Bank of Fulton, Mo., is gone as is \$15,000 of the bank's money. It is said Rockefeller has agreed to give \$20,000,000 to complete Chicago University's plans. The worst blizzard in years is raging at Cleveland, O., impeding street car and railroad traffic. Midway has seven residents whose combined ages aggregate 574 years—an average of 82 years. The Maryland State Library has barred out the Macley history censuring Admiral Schley. A car of rails tipped over near Cherokee, Ia., killing two men and fatally injuring three others. On Phillips Fork in Leslie county, Sam Caldwell was shot from ambush and mortally wounded. The defalcation of Cashier Matteson, of the First National Bank of Great Falls, Mont., is \$70,000. William Hoffmeister, former supreme recorder of the Legion of Honor, committed suicide at St. Louis. A blaze in the jail at Springfield at midnight gave the prisoners a lively scare, but was quickly extinguished. The B. & O. S. W. railroad is importing men to take the place of striking motow shop men at Washington, Ind. Civil Governor Taft says 15,000 soldiers will be an ample force in the Philippines before the close of the year. A. Dean Cooper, a wealthy St. Louis citizen, is dead of injuries received in a mysterious manner in a St. Louis bathhouse. The board of army officers to consider the location of sites for military maneuvers will meet in Washington Jan. 21. The Middlesboro Mineral Road beat the L. & N. to Bonnet's Fork in the red hot road building contest, which began at midnight Tuesday. Bob Fitzsimmons, pugilist, fell down a flight of steps in a Brooklyn theater and seriously injured his spine. It is possible he was dodging a fight with Jeffries. A shortage of \$10,000 was found in the accounts of H. C. Tatum, treasurer of the Western Commercial Travelers' Association, who recently committed suicide at St. Louis. At Chicago Wm. Whitmacker, shot and fatally wounded May Conaty because she refused to marry him until he reformed from bad habits. He then shot and killed himself. The new board of trustees of A. & M. College is as follows: W. R. Ramsey, London; G. B. Kinkead, Lexington; C. M. Clay, Paris; John McCord, Lebanon; W. C. Bell, Harrodsburg. A woman near Sparta, who was a religious fanatic, accepted literally the scriptural injunction, "If thine eye offend thee, pluck it out," etc., pulled out one of her eyes and died from her injuries. The great prosperity of the country is shown by a statement of the condition of all the National banks on Dec. 10. Resources showed the magnificent total of \$5,722,730,635. Deposits were \$2,904,417,695, and capital and surplus \$1,111,235,943. Loans and discounts increased \$331,720,503 in a year, showing the great commercial activity. Deposits in the same period increased \$340,420,413. Judge Evans delivered an opinion scoring ex-banker McKnight, of Louisville, refusing to grant him bail for the reason that it was time for his punishment to begin, that another reversal in the higher court was unlikely and that he entertained grave apprehensions of the accused skipping bond. McKnight's lawyers will appeal to Judge Horace Lurton, of the United States court of appeals, for bail for their client.

IN NEIGHBORING COUNTIES.

There is talk of establishing a glass factory at High Bridge. J. L. Baird has been appointed postmaster at Cane Creek, Laurel county. Ben J. Lancaster, Jr., son of Circuit Clerk R. J. Lancaster, of Lebanon, died at Houston, Texas. The two year-old child of George Chambers, colored, burned to death while his mother had gone after a bucket of water, near Richmond. There is an average of 30 inmates in the county poor-house the year round, and Keeper Jaku Board tells us there has not been a death among them in a year.—Harrodsburg Democrat. The beer bottling works and the cold storage plant of the Somerset Ice Company and the residence of John Chenoweth were destroyed by fire, loss about \$7,000, with only \$2,000 insurance. H. C. Cozatt, record keeper of the Parkville Lodge of Maccabees, has received from the supreme record keeper the sum of \$1,000 for Mrs. Charles S. Parks, the widow of the late Charles S. Parks. The London Echo offers 10 cents of every 50 cents subscription received to the Caleb Powers defense fund. The liberality of the offer is not apparent when one considers what a small return he receives for the 40 cents that don't go to the defense fund.—London Democrat. Burglars entered the Forsythe House at Lebanon Junction, going through the pockets of three boarders. They secured \$30 from Walter Rice, \$22 from Granny Whit and \$20 from James Graham, all employees of the L. & N. railroad. It is believed chloroform was used. At the meeting of the St. Asaph Chapter of the Daughters of the American Revolution at Danville, Regent, Mrs. Wm. Warren; Vice Regent, Miss Kate Tunk; Treasurer, Mrs. Gashweiler; Secretary, Mrs. Fayette Dunlap; Registrar, Mrs. W. C. Roberts; Historian, Miss Mary Shelby, were elected. A Burgin dispatch says: "Uncle" Elijah Bledson, colored, the oldest living man in the United States, is now lying at the point of death at his home in the West End of this county. Elijah is 140 years old, has been married 13 times, having more than 100 living children, who are scattered all over the United States. Life is a wayside inn For men and brothers; Some blow in all their tin To treat the others. Some hang around till late To strike some chap, Who, going every gait, May treat, mayhap. Some drink one glass of beer, Nor deem that risky, But when a treat they hear Will order whisky. Some empty many a glass While drinks are flowing, Then reel off home at last, The bill still owing. —Times Tattler. REMARKABLE CURE OF CROUP. A LITTLE BOY'S LIFE SAVED. I have a few words to say regarding Chamberlain's Cough Cure Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle from A. E. Steere, of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed, every 10 minutes, until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—Joel Demott, Inwood, Iowa. For sale by Craig & Hoeker, druggists. MARI GRAS. QUEEN & CRESCENT ROUTE.—New Orleans, Feb. 11. Greatest Mid-Winter Fete in the world; weird and beautiful. Low rate excursions Queen & Crescent Route. Finest train service in the South. Two fast 24-hour trains every day in the year from Cincinnati. The trip through the beautiful Southern country is a holiday in itself. All inquiries gladly answered. Free printed matter. W. C. Rinearsen, G. P. A., Cincinnati. Charles Bellamy, a Burlington railroad fireman, in 11 years of faithful service has traveled 606,840 miles and shoveled 32,501 tons of coal on the way. He never lost a trip or received a single scratch through accident. Railroad men say that it is a case of physical endurance never equaled. Col. Gilbert Bentley, a wealthy West Virginia timberman, was killed in a pistol duel with Riley Ramsey. L. W. Hamby, a prominent farmer of Christian county, died of injuries received in a runaway. Ninety-five tons of gold and 520 of silver are mined in a single year. Cleveland capitalists bought 170,000 acres of cotton land in Louisiana. Oil was struck in Bourbon county.

LANCASTER.

The question of water works has again become a matter of "town talk." Judge A. D. Ford presided for the first time at the official desk Tuesday at a meeting of the fiscal court. Dr. H. M. Grant has received the appointment of county physician for 1902. There were four applicants for the place. Jason Joskins, a down east comedy drama, appeared at the opera house last night, with a fine band and orchestra and singing and dancing specialties. The Junior Endeavor Society will give a candy pulling in the Storries store-room on Danville street Saturday, 25th, beginning at 2 P. M. Admission, 10 cents. The Presbyterians of this city think of calling Rev. McClurg, of Paint Lick, for a portion of his time. He is filling a very acceptable pastorate for the Presbyterian church of that place. Rev. George Green, of Evansville, Ind., will preach at the Fork church Sunday. Rev. Leonidas Robinson is back from his vacation and will fill his pulpit at the Methodist church in this city. Mr. and Mrs. Johnson, two successful evangelists, are now in the midst of a largely attended meeting at Mt. Olivet, this county. Miss Yowell, of Lincoln, is the conductor of the choral services. H. B. Northcott's large warehouse and poultry building on Stanford street is nearing completion. It is quite commodious in order to accommodate Mr. Northcott's varied and extensive trade. The Garrard County Medical Society meets in this city at the Hotel Garrard this afternoon. Drs. Carpenter, of Stanford, and Frank Walker, of Paint Lick, are to furnish the papers of the convention. The old county board of health have received their reappointment from Dr. McCormack, the president of the State board; Drs. J. B. Kinnaird, I. S. Wesley and H. M. Grant, constitute the health officials. Mrs. Mary Harris, who has made a month's visit to her aged mother, Mrs. Susan Anderson, of this place, leaves tomorrow for Lexington to be the guest of her sister, Mrs. Miller. She will go from there to Indianapolis. Mr. Armstead Adams, of the Paint Lick vicinity, died Tuesday and the interment took place Wednesday in the Lancaster Cemetery. He had reached his 78th year and leaves a lonely widow to mourn his departure. The local order of Maccabees, through its officer, Jacob Joseph, received \$3,000 for Messdames Nancie Hamilton and Margaret Stevens, whose deceased husbands were members of that lodge. The former gets \$2,000 and the latter \$1,000. Senator George T. Farris keeps to the front in the introduction of bills in the Kentucky Senate. His local option bill is said to cover the case satisfactorily, and will doubtless pass without opposition, and his "rabbit law" is also pronounced good, and will protect other game as well as the hare. Wm. Lackey has returned from Texas, where he was called by the death of his brother. Hon. R. H. Tomlinson, who has been here with his family, has returned to Frankfurt. Editor Louis Landrum has returned from the State Capital, much pleased with his sojourn and the culture and geniality of Kentucky's gifted young executive. "The Continental Kettle Drom," the amateur entertainment to be given by young people tonight at the opera house, has a combination of 40 performers, and includes a Martha Washington tea party, an old-time "deestret skule," a colonial ball and a Gypsy encampment among its chief features. As two of Stanford's most attractive young ladies, Misses Pearl Burnside and Tessa Carpenter, are leading characters, a number of Lincoln visitors are expected. It is reported that the Standard Oil Company has leased some land in several sections of this county and will do some prospecting for the crude petroleum. Rumor also states that they would not lease what is known as the "Pollard Oil Wells" of the Flat Lick locality, as it has been found that a former lease still holds good, and that stockholders of this oil venture of over half a century ago, may yet realize something from their investments. This section was first bored and wells sunk over 65 years ago. Mrs. Arthur Hubbard, who has been a guest of Mrs. John E. Stormes, returned Wednesday to her home in Covington. Andrew Jackson Wells, a Western man, has bought a one-acre lot of Jacob C. Robinson at the extreme end of Water street, and will soon begin the erection of a residence. B. T. Foley, of Lexington, is the guest of Misses Martha and Sallie Tillett. Mrs. E. G. Kaufman has returned from a two weeks' stay in Hustonville. James Doores has rented his dwelling to Mrs. Belle Austle and daughter, who will move to their new abode on Monday.

MRS. SALLIE J. BALL.

Aged nearly 87, breathed her last at about 11 o'clock Wednesday night, after being confined to her bed nearly a year. Although an invalid, her death was very sudden, as she was feeling about as usual and was in good spirits when her daughter, Mrs. Swope, gave her a toddy some 30 minutes before she died. It is believed that heart disease caused her death. Mrs. Ball had suffered two strokes of paralysis and possibly it was a third stroke that did its deadly work. She was the relict of Thomas M. Ball, who was a preacher and under whose preaching she professed religion when she was only 17 years old. It was a case of love at first sight, it seems, and a short while later they were made one. Mrs. Ball was the mother of Thomas C. Ball, of this place, John P. Ball, of Texas, and Messdames Elizabeth Routon and Sallie J. Swope. All of the children almost worshipped their aged mother, while the former son's devotion to her was beautiful indeed. He had spent every Sunday in two years, with one single exception, with her and has been as kind and attentive to her as a son could be. He is almost broken-hearted over the loss and wept bitterly when he told us of his mother's death. At 11 o'clock this morning the remains were taken to Goshen and all that was mortal of the good old mother was laid to rest until the resurrection morn.

Mrs. H. A. B. Marksbury entertained the following at a sumptuous dinner yesterday: Rev. and Mrs. A. R. Moore, Rev. and Mrs. J. E. Woolford, Mrs. G. T. Farris and Miss Sallie Tillett. S. C. Dunny and sister, Mrs. Mattie Duncan, have returned from the funeral of Mr. Joe S. Grimes, of Elizabethtown. Miss Florence Tanner, of McKinney, is visiting Mrs. W. K. Shugars Senator and Mrs. George T. Farris and daughter were called Saturday to the bedside of Mr. Farris' father at Silver Creek.

MT. VERNON.

Work is to be pushed on the Copper Creek well. Nearly every one in the county has a cold and a cough. The supervisors are in session and they are raising valuations right and left. We understand that J. H. Clark, a merchant of Goshland, has made an assignment. The Bastin Company has secured a franchise in Livingston and will put in a telephone exchange at that point as soon as the weather permits. Two resignations will shortly cause new appointments and quite a swap around among the railroad agents. Brodhead, Mt. Vernon, East Bernstadt, Pittsburg and London are some of the mentioned stations. Larkin Hicks won the first prize in the old fiddlers' contest at Brodhead Tuesday night. Alex. Martin, Rowland, second, and Fount Tyree, of Rockcastle, third. A good crowd was in attendance and all enjoyed the show. Our people were pleased to hear a few days since that an organization had been perfected for developing the Pine Hill mines. The capital, which is large, we are told, has been secured. Among the enterprises contemplated are coke ovens and a fire clay plant; this county having thousands of acres of fine grade of clay suitable for the purpose. Will Mason, of Orlando, is dangerously ill of pneumonia. Prof. A. E. Ewers, principal of Collegiate Institute, has been ill for the past week. Col. J. B. Flab and family will not move to Knox until Spring. By that time we hope they will conclude to remain in Mt. Vernon. C. C. Williams was in Berea Thursday. M. F. Brinkley, traveling for a Cincinnati house, was here several days this week. Pete Hampton seems to be right in it at Livingston. John Cummins, an old soldier, has been dangerously ill for some days. A persistent cold is yet in our midst. Dr. William Leroy Brown, president of the Alabama Polytechnic Institute, died suddenly at Montgomery, Ala. Mission property in the Fiji Islands was destroyed by natives.

THE INTERIOR JOURNAL

E. C. WALTON.

W. P. WALTON.

Is a Candidate for Railroad Commissioner for the 2d District, subject to the will of the democracy.

THE following dispatch sent from Vanceburg to the Lexington Leader during the Howard trial has fallen short of the probably desired effect: "J. Noel Johnson, the famous writer of short stories of Kentucky life, has about completed what will probably be the most sensational novelette ever written, entitled 'Why I killed Goebel.' The substance came in a letter to Johnson from Asuncion, Paraguay. The writer claims to have killed Goebel and explains why he did it. He did it, he claims, principally because he believed that by putting Goebel out of the way he would save the life of the democratic party. On this letter Johnson elaborates a wonderful tragic romance. The writer claims to belong to an old, aristocratic family. He says that after the Sandford killing he went to Goebel's office and challenged him to a fight. Goebel gave him a quiet look out of the corner of his eyes and said: 'Don't you know that every lawyer takes an oath not to fight a duel? This is my busy day,' and waived the young man out. After the shooting he claims he made no effort to escape and later went away only at the tearful importunities of his sisters."

If you want to prolong your life get married. Dr. Fitz, the leading German statistician, is satisfied, after many years of collecting materials, that married persons live longer than single persons, but he shall cling to the minister's assertion that they do not live longer—it only seems longer. The doctor's figures show that the deaths of married persons between 30 and 70 are three-fifths less than of unmarried persons. The average life of the unmarried person who passes 31 is 38 1/2, of the married 61 1/2. The death rate among married persons between 20 and 60 years of age is 67 per thousand, unmarried 84.

THE Lexington Herald in an editorial has this to say about our brother, for which we extend our thanks: The editor and manager of the Morning Democrat is a Virginian by birth, the son of a Confederate soldier, who came to Kentucky when but little more than a youth, and for years has edited a successful paper at Stanford, and filled with credit to himself a large place in the upbuilding of that community—standing for an enforcement of the law and the preservation of order, at times against great odds.

MR. CLARENCE E. WOODS' friends all over the State would like to see him made Senator James B. McCreary's private secretary. We don't know that Mr. Woods wants the place, but he is certainly a well equipped gentleman for it and if he should express the slightest desire to be the Senator's private secretary a monster effort would be made by his legion of friends to secure him the position.

A WASHINGTON dispatch says that the contest over the Louisville surveyorship has developed into a contest for supremacy between Bradley and Yerkes. The president is in a quandary. He would like to appoint Collier, but for the many objections lodged against him.

Who could blame the Mississippi man who objects to being hung on the same day and scaffold with a Negro? Would any of our readers enjoy such a thing? Of course not.

G. S. DEXTER, who had not taken a drink of water for 40 years, is dead at Fairbury, Ill. It took a long time for stronger drinks than water to get in their work.

POLITICAL.

The president nominated Dr. Hixey to be surgeon general of the navy. The decision of the Isthmian Canal Commission causes no surprise in England.

Judge Jere Morton, of Lexington, decides that he will be a candidate for governor.

The republican caucus for United States Senator in New Jersey took a fruitless ballot.

Appellate Court Judge O'Rear is in Washington taking a hand in the Federal patronage scramble.

Ex-President Cleveland indorses President Roosevelt's stand in regard to tariff concessions to Cuba.

Judge T. Z. Morrow emphatically decides that he will be a candidate for Congress in the 11th district.

The bill giving distilleries 10 days further time in which to make withdrawal reports passed the Senate.

The treaty providing for the sale of the Danish West Indies to the United States will be signed at Washington this week.

The republicans of the Legislature have decided that the State Capitol and St. Louis Exposition bills are not matters requiring caucus action.

The Kentucky Senate has passed a bill increasing by \$21,000 the annual appropriation for the State guard and making the amount \$23,000.

The Kentucky Senate passed a bill to prevent the use of Paris green on tobacco.

The House bill against anarchists will provide the death penalty for an attempt to kill or assault the president or any one in the line of succession to the office.

It is Senator McCreary, of Kentucky. A very good selection; a vast improvement over Deboe, who is about the smallest man Kentucky ever permitted to go the Senate.—Nashville American.

The Legislature of six States have notified Congress that they desire an amendment of the constitution providing for the election of United States Senators by popular vote.

Rev. J. E. Wood, pastor of the First Baptist church, colored, of Danville, is in Washington, to hold a conference with President Roosevelt with reference to securing a greater share of the Federal patronage for the colored politicians of Kentucky.

The Joint Legislative Committee on charitable institutions heard arguments on the Carroll bill at Frankfort. It is believed the bill will be reported favorably, but the Deaf and Dumb Institute and the Institute for the Blind will be exempted from its provisions.

Outsiders are taking some interest in the Collier-Barnett fight in Washington. Senator Scott and Postmaster General Payne have spoken a few words to the president in Barnett's interest, while Commander Dyreforth, of the Union Veterans' Legion, is working for Collier.

The item in the Urgent Deficiency bill providing for an appropriation of \$500,000 for an army post at Manila was stricken out and an amendment substituted providing for the expenditure of \$500,000 for a place in Manila for the "shelter and protection" of the American troops.

Representative Eli H. Brown, Jr., of Nelson county, has introduced a bill which revolutionizes the Jefferson circuit court. It provides that the four or more judges shall rotate monthly on the benches of the several divisions instead of presiding regularly in one court as they do now. An emergency clause is attached.

Hon. R. C. Warren, of Stanford, was in the city Monday mixing with his friends and putting up his fences. Mr. Warren was born and reared in Boyle county and will be mighty hard to defeat for her vote. He has the distinction of carrying a district for Common wealth's attorney that was largely republican and no better democrat ever lived.—Danville News.

The Senate Committee on Judiciary decided to report favorably the Farris bill which provides for submitting to a vote of the people the proposition to amend the constitution as to permit a return to the viva voce system of holding elections. This was the first bill introduced at this session. At the meeting of the committee all the members voted for a favorable report except Senator Kirk, republican, who did not vote at all.

At last James B. McCreary can read his title clear to the United States Senatorship and he will take his seat in "the most august deliberative body on earth" with the unanimous good wishes of his party. When McCreary first set his eagle eye on the togs it became his'n, and the subsequent period was devoted to the mere precautionary work of guarding against the remote possibility of a slip twist the cup and the lip. The victory was as easy as rolling off a log and as slick as the descent to Averous. Yet every step of the way was seeded with good works. Henceforth he will reap only as he has sowed.—Lou. Times.

THIS AND THAT.

Another slight earthquake shock was felt in Chilpancingo, Mexico, yesterday. Isaac Hughes, said to be Gen. Zollinger's favorite colored servant, is dead at Pineville.

The Mississippi House has passed a bill appropriating \$50,000 for an exhibit at the Louisiana Purchase Exposition.

The tax on corporations, banks and insurance companies in New York State during the current fiscal year will yield over \$6,000,000.

Mrs. Susan S. Porter, aged 70 years, the original of "Sunshine" in Mrs. Mary J. Holmes' famous novel, "Tempest and Sunshine," is dead at Versailles.

Religious statistics for 1901 show that the gain in church membership in the United States during the year was 2.67 per cent. while the total gain in population was only 2.18 per cent.

MATRIMONIAL.

Miss Ella Hart Wingate, of Midway, well-known here, was married at the Galt House in Louisville Wednesday to W. W. Headies, of Mayfield.

Howard Moore, under arrest in Wolfe county, for bigamy, is said to have 13 living wives. Serves him right for not being satisfied with an even dozen—13 always was an unlucky number.

Miss Nanette Acero, aged 13, and J. Hoop, aged 16, were married at High Bridge. They were charivariated that night, but were too young to mind it—thought it was a serenade, probably.—Harrodsburg Democrat.

Walter S. Holtzclaw, a clever farmer, and Miss Addie Lee, the handsome daughter of Mr. and Mrs. Alex Martin, were married at Rev. W. E. Arnold's by that gentleman Wednesday night. The participants are popular young people and have many friends, who heartily congratulate them on their important move.

On Wednesday at noon in the rooms of Rev. J. W. Hagin, a short ceremony was said by him which united the lives of R. B. Green and Miss Emma T. Goode. Rev. R. B. Mahony joined four happy hearts at the home of Dr. E. J. Brown Wednesday with one impressive ceremony. They were David Thompson and Miss Jael Garner and Logan Thompson and Miss Ella Sprinkles, all of the East End, and well connected young people. THE INTERIOR JOURNAL extends its heartiest congratulations to the young folks who have just taken so important a step in their lives.

THE HOWARD TRIAL.

The defense closed its case in the Howard trial at Frankfort Wednesday and the Commonwealth began on its evidence in rebuttal. Several witnesses broke the force of the testimony of Howard's "alibi witnesses," Robertson and Poore, by testifying that they had told conflicting stories of their whereabouts. The State also examined witnesses from the mountain counties, who testified that James Stubbfield and John M. Collins were men of good character and reputation.

Sam Gregory, Elijah and John Herd, of Clay county, swore that Jim Howard exhibited to them a false mustache, black in color, which he carried in an envelope. William Sanderlin, of Owsley county, testified that Bev. White told him that Jim Howard had killed Goebel, that he and his brother, John G., had spent \$4,000 in the case and they would spend every cent they had to "fetch Jim out." Sanderlin further testified that Bev. White told him that he got Jim Howard to kill Goebel. Sanderlin was put under the guard of a deputy sheriff after he came to Frankfort to prevent him from leaving town. He said Robt. Webb came to him and told him if he would escape from the sheriff and not testify against Howard, Bev. White would give him \$50.

A GOOD RECOMMENDATION.

"I have noticed that the sale on Chamberlain's Stomach and Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Caswell, Iowa. What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. For sale by Craig & Hocker, druggists.

The formation of the Mutual Oil and Gas Co., a new oil enterprise of Columbia, has about been completed with a capital stock of \$25,000, divided into shares of \$10 each. This company is said to have leases on over 500 acres of land in the oil district of Wayne county. The Columbia Oil Company has been compelled to abandon its first well after going to a depth of 1,300 feet on account of the drill being fastened in the bottom of the hole.

St. Louis will send a distinguished delegation to Kentucky to urge an appropriation for the World's Fair.

The republican caucus of the New Jersey Legislature nominated John P. Dryden for U. S. Senator.

The C. & O. will build a \$100,000 office at Cincinnati and a \$25,000 station at Charleston, W. Va.

A reception was given at the White House in honor of Congress.

A year ago yesterday, (Jan. 23, 1901), occurred the uprising at Baeolor, Luzon, P. I., when the combined concentrated forces of Gens. Macarido and Alejandrino attempted to take the town by storm, release the 500-odd insurgent prisoners and blow the 41st Infantry, U. S. V., to hades. Their attempt was most futile as told in our letter at the time, resulting in a wholesale slaughter of the enemy with only two Americans slightly wounded. This was our last fight—and was the date fixed for a general uprising throughout the Archipelago.

The combined drug and grocery store, machinery warehouse and undertaking establishment of George R. Jeter burned Wednesday night about 10:30 o'clock. The fire originated in the lower basement and the building was in flames almost the moment the fire was discovered. Everything is a complete loss, nothing being saved except the books and a small show case. A large and complete line of drugs, groceries, shoes, men's furnishing goods, machinery and a number of coffins and metal caskets were consumed by the flames. The building was one huge mass of flames almost instantly and it was with hard work that Miller's shop was saved. The loss is something near \$1,000, with insurance of \$2,500.

By unanimous vote the joint Legislative committee on corporations at Frankfort decided to report favorably the double liability repeal bill.

GAS AT 100 FEET.—The drillers who are operating on Mrs. Mary Johnson's farm, between Junction City and Middleburg, struck a strong flow of gas at 100 feet.
THE Danville News has information that Father Paul Volk, who was reported killed to Columbia, S. A., is not dead but on the contrary is expected to visit Kentucky soon. Father Volk built the Catholic church at Ottenheim.
BLOODHOUNDS DID THE WORK.—The bank at Hartford, this State, was burglarized and \$1,000 taken. Bloodhounds were put on the trail and four crooks with the cash in their pockets were caught. What's the matter with Lincoln county buying a couple of good bloodhounds? It might prove a good investment.
GEORGE GRAY, who got 10 years on the charge of shooting and robbing Postmaster Colson, near Middleboro, and who was here pending an appeal, was taken to Pineville Wednesday to testify in the case of the Commonwealth against George Eaton, charged with being implicated in the above case. LATHIN.—The trial was continued and Gray was brought back today.
JASON JOSKINS.—At Walton's Opera House Monday night. The above play will be presented by a capable company headed by Miss Lorene Jansen and Mr. Clare Stonaker. It is one of those rural comedy dramas, replete with down east comedy and plenty of high-class singing and dancing specialties—the kind of a play that made Duncan Thompson, Alvin Joslin and James A. Herne famous. It is replete through the piece is the Squashtown band and quartette and the latest songs and dances by members of the company. They carry a strong band and orchestra. Go and enjoy yourself.
DANVILLE.—The pension of J. R. Dodds has been increased from \$6 to \$8 per month. Miss Eliza Burge, aged 17 years, died at the home of Frank Clark, in Junction City, after a brief illness of consumption. Miss Katherine Caldwell, daughter of Mr. C. K. Caldwell, of Perryville, will be married tomorrow afternoon in Louisville to Mr. Warren Montgomery, of that city. Ex-Sheriff G. W. Coulter has purchased "Thornhill" farm, five miles from town on the Lebanon pike, of Misses Ella and Bessie Caldwell, for \$1,000. The farm contains 20 acres, upon which is one of the largest dwellings in the county.—Advocate.
GORTON'S MINSTRELS Wednesday night did not draw as large a crowd as the good, clean show they gave deserved. The total receipts were only about \$110, when the management had expected at least a \$200 house. Our people don't like shows, it seems, though and if they want to miss all of the good things going, it is no kink of ours. Joseph Gorton, Jr., proved himself a wonderful musical prodigy, playing well on every instrument one could think of. Wolby and Pearl did some clever work as Negroes and their dancing and tumbling was fine. The jokes were for the most part new and the singing was above the average. The 25 men in the show are all gentlemen and it is a pleasure to do business with such an organization.
BRAZLEY.—Mrs. Sallie Embry Beazley, widow of Col. J. M. Beazley, died at the home of her daughter, Mrs. Scott Burton, in Hoyle, at 10 o'clock last night of stomach trouble, aged about 70. Mrs. Beazley was one of those excellent, christian women, loved by all, and her death causes universal sorrow. She was a devout member of the Christian church and was a regular attendant at its services. Eight children are left to mourn this sainted mother; Mesdames Scott Burton, Caleb Johnson, Misses Mollie and Alice Beazley and Messrs. Charles, Embry T., James R. and Grimes G. Beazley, and in their sorrow they weep not alone. The body was brought to her late home today and will be interred in the Lancaster Cemetery after services at the house on Logan's Creek at 10:00 Sunday morning by Rev. J. W. Haglin. A good woman has gone to her reward; let her splendid life be emulated.

THE following telegram was received by the manager of the opera house this morning: "Jason Joskins played here last night to good business. First class show and deserving of patronage. T. B. Long, Manager Lancaster Opera House."
AN ACCIDENTAL KILLING.—Aratha Stewart, colored, aged about 20, was accidentally killed at Crab Orchard Tuesday by his own pistol. He was washing his face, when the weapon fell from a pocket of his overalls and discharged. The bullet pierced his heart and he died instantly. He was a son of Andy Stewart, a well-known darkey, and had been in the employ of the Springs Company.
SOLD OUT.—John H. Meier, who has made a snug little fortune in the fancy grocery and restaurant business, sold out this morning to E. L. Rinehart, who has also been one of Stanford's successful merchants. Mr. Meier will rest up for a while and in the meantime watch out for something good. He does not want to leave the place. He can get into a profitable business here, as he agrees with all who have "drunk out of the old spring" that Stanford is the best town on the map. Mr. Rinehart is a fine business man, pleasant to deal with and should and will do well in his new role. He proposes to keep up the good reputation of the business Mr. Meier started and asks a share of public patronage. He will increase the stock at once.

Jesse C. Lynn purchased 15 butcher cattle at 3c and 25 hogs at 5c. Cogar & Davis have purchased 1,500 acres of hemp in Boyle and surrounding counties at 44 to 54c per 112 lbs.—Danville News.
MT. STERLING COURT.—About 2,000 cattle on the market, quality common. Trade quick; 900-pound steers sold at 4 to 4 40, yearlings at from 44 to 44c, beefers at 3 to 4c, cows at 3 to 4c. J. E. Boardman, of Bourbon, bought 23 800-pound cattle of Green & Lyman at 3 45. The mule market was dull. Small mules sold at \$60 to \$80, and some 154 at \$100.

THE GUESTS.

Life is a wayside inn
Whence some depart
Before the feast has been
Brought on! They start
Upon their journey long
But ill inclined
The feasting, wine and song
To leave behind.
Some tarry till the board
Is fully spread,
Then, ere the wine is poured,
They go, unfed,
But some live long day
Feast, dance and sing—
At eventide they pay
The reckoning.
—Chicago Record-Herald.

SAMOAN COSTUMES.

Made With a Hatched, a Club and a Pot of Paint.

In the south seas dresses are made with a hatched, a club and a pot of paint. Every housewife is her own robe and habit maker. When she feels the need of a new gown, she goes and chops down a tree. When her husband needs a new suit, she chops down another tree. That is easy, for men and women are clad exactly alike—a plain fold of cloth caught about the waist and hanging loosely to the knee or shin. The races inhabiting the islands of the tropical Pacific are almost alone in having no idea of the loom and the various arts of the spinner and weaver. This lack is undoubtedly due to the natural provision of material which renders a woven cloth unnecessary to this primitive people. The only fabric used in that part of the world is a crude, tough paper made of bast. The tree from which the material is derived is the paper mulberry, or Broussonetia papyrifera, which is grown in plantations under the sole charge of women and is also found wild in all parts of the islands. In archipelagoes so lightly advanced as Samoa and Tonga, where women have none of the coarser work to do, the entire care of the mulberry plantations rests with the women of each village.

The trees are planted closely to insure a spreading growth without lateral branches. The plant will grow from seed. In such a climate there is no difficulty about getting things to grow, but experience has shown that better results follow the planting of twigs from the surlier wild trees. In about three years from planting the tree will be in the best condition for the clothmakers. In that time it will attain a height of twelve feet or more, and the trunk will have a uniform diameter of rather less than two inches. About four feet of the trunk is waste and not available for the particular purpose for which the tree is grown; the first two feet from the base is too tough to work well, and the two feet at the top is too soft. If the tree is properly grown and left to mature, there will be available for the clothmaker a stick of eight feet in the clear and as straight as a measuring rod, without knots or branches and of uniform girth throughout.—New York Tribune.

A Story of a Father's Love.

Old Mr. — has an only daughter. They are of lowly rank, but he is honest and industrious. By trade he is a puddler in a foundry, and he earns \$4.50 a day. Twenty years ago the wife and mother died, and the child of five became the old man's pet. Twelve years ago he sold his property and spent all his money in sending her abroad to study music. She came back two years ago a famous singer and a matchless beauty and refused to own her father. He has moved to the east side in order that by living on a pittance he may have \$20 every week to give her to buy clothes. Every week he sends it, and every week she spends it, though she neither sees nor writes to him. Week after week he grows in little prouder and also a little sadder.—City Missionary in Ladies' Home Journal.

December's Names.

December, so called from being the tenth month when the year began in March, has probably had more names conferred upon it than any other of the twelve into which our year is now divided. Among the early Saxons it was called Winter Month, or winter month. After their conversion to Christianity they called it Heligh Month, or holy month, in honor of the birth of Christ. In later days in Germany it was called Christ Month for the same reason. Fires used to be lighted for warmth in this month, and the want of chimneys used to cause a too obvious inconvenience, which led to its being called Fumons, or smoky. It was also dubbed Canus, or hoary, from the snows or hoarfrosts which then generally whitened the higher grounds.

The Force of Cyclones.

Careful estimates of the force of a cyclone and the energy required to keep a full belted hurricane in active operation reveal the presence of a power that makes the mightiest efforts of men appear as nothing in comparison. A force fully equal to over 400,000,000 horsepower was estimated as developed in a West Indian cyclone. This is about fifteen times the power that can be developed by all the means within the range of man's capabilities during the same time. Were steam, water, windmills and the strength of all men and all animals combined they could not at all approach the tremendous force exerted.

A Test of Friendship.

A gentleman has tried the following peculiar way of probing the ties of friendship. He sent letters to twenty influential friends asking for a loan of a pound. Thirteen of the two dozen friends did not reply at all, five declined to lend the money, two promised to send it on the next day and did not do it, one sent his "last 10 shillings," and only three sent the full sum asked for. The supplicant and all the "friends" he had written to are well off.—St. Petersburg Novoe Vremya.

One Sign of Old Age.

Henry—How can a man tell when he begins to get old?

John—Well, a man has begun to get old when he finds out that he would rather sit by the fire than go sleigh riding.—Detroit Free Press.

Nerve Required.

Pordita—Did you say, "This is so sudden?"

Constance—I didn't have the nerve. You know how he stutters.—Chicago Record Herald.

KINGSVILLE.

Elder Berry, of Henderson, filled his appointment at the Christian church Sunday morning and evening, addressing a large audience. Rev. Dr. Allen, of Danville, will hold services "Deo Volente," at the Christian church next Sunday morning and evening.

Of the many favorable things that could be said of our city, it is not that we have good sidewalks. It is really dangerous walking and in the neighborhood of so much lumber it seems inexcusable. If the majority of our people could be made to think with the minority, our town would be incorporated. That a town of 450 inhabitants, more or less, is not incorporated is really ridiculous. We want rural free delivery too.

Miss Ada Shelton, of Rowland, has been the guest of relatives here. Miss Bernice Johnson, who has been the guest of relatives here for the past six months, will leave tomorrow for her home at Vernona. Lough Evars, of Junction City, was the guest of friends here the first of the week. Mrs. F. M. Howe entertained a few friends at supper for her son, John, in honor of Miss Bernice Johnson on Tuesday evening. Mrs. W. W. Walter has been quite sick with throat trouble and other symptoms of the grip.

AN ATTACK OF PNEUMONIA

WARDED OFF.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance, was undoubtedly warder off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by Craig & Hocker, druggists.

POWER OF THE HEN.

The American hen laid last year a total of 10,000,000,000 eggs.

The total value, at an average of 15 cents a dozen, was \$138,000,000.

The hen's earnings were greater than those of the entire postal system.

The sum realized would have paid the expenses of the entire war department.

The total weight of the eggs laid last year was more than 1,000,000,000 pounds.

If the eggs were equally divided among the inhabitants of the country, each human being would get 111.

The number of chickens in the United States is estimated at 251,000,000.

Admiral Dewey and Joseph Jefferson, the actor, are inseparable friends at Palm Beach. They frequently stroll in the suburbs of the Florida resort, and the other day were seen sitting on a fence, swinging their feet like two school boys, having a good old-fashioned talk about a lot of interesting things without interruption.

\$100 REWARD!

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CENEY & CO., Toledo, O. Sold by druggists. Beware of cheap imitations. Hall's Family Pills are the best.
